Professional Goals

A highly motivated full stack developer seeking a position in a reputed company where I can use my skills, learn new things and grow as a software developer.

Experience Highlights

Full Stack Developer Trainee
Strive School | February 2021 – August 2021

- Created new features, functionalities and capabilities from concept through deployment using tools such as React, Node, Mongo, Express and Heroku.
- Collaborated with team members to discuss and implement features.
- Cloned apps such as Spotify, LinkedIn etc.
- Fixed bugs and reviewed code.

Researcher
University of Hertfordshire | Sep 2019 – Sep 2020

- Researched and wrote technical reports on integrating machine learning with SDNs.

Intern
Post & Telecom of Kosovo | Jul 2016 – Sep 2016

- Commended by company and university on findings regarding load of BTSs during certain time of days.
- Delivered exceptional performance and interfaced with staff to achieve 100% satisfaction.
